Unlock convenience and security with the Schonell card, designed specifically for Schonell Access Systems.

Our card offers a quick, seamless, and secure way to access your home or office with just a tap. Choose from various unlocking methods, such as contactless tapping or using the Schonell Access app from your smartphone.

Personalized Access Control: each card may be paired to one app, ensuring personalized access for enhanced security. Easily manage who has access, whether it's family members, employees, or guests.

Schonell card is the perfect companion to your Schonell access system, combining ease of use with advanced security features for complete peace of mind.
