Sales@schonell.com.sg

Schonell Elevator Alerte is an intercom backup communication security feature for lifts and elevators without any emergency communication modules.

Unlike the regular elevator alarm button, the Schonell elevator alerte is an emergency lift intercom upgrade for your elevator that facilitates full duplex wireless calls to the front desk or security in times of emergency.

The Schonell elevator alerte is available in a range of architectural finishes to suit any site, in either flush or surface mount housings.
